everything you need for the big day

## BE PREPARED FOR BIRTH WITH A LABORKIT

Having a baby is a time of great excitement and anticipation. You need to be prepared and want to be as comfortable as possible as you welcome your new baby into the world. Whether your labor is 40 minutes or 15 hours, LaborKit<sup>TM</sup> can help make that time easier for you.

### Must-Have Items

Each LaborKit<sup>TM</sup> contains essential items to get you through labor and help ease discomfort in the days following. All items were carefully selected to ensure quality with trusted names like Ecorite, Tena, Pampers, Gerber and Burt's Bees.

### Birth Plan

A blank birth plan form is included to help you convey your preferences and wishes to your birthing team in a clear, concise way.

### "Share the Joy" Contact Form

Have all your friends' and family's contact information right at your fingertips, so you won't be fumbling when it comes time to share the joy.

### "Baby Quick Stats"

Make post-birth announcements easier. Above the "Share the Joy" contact list, record the important information that everyone will want to know when you call with the good news: the baby's full name, weight, length, time of birth, visiting hours, room number, etc. Having all the information in one place will make it easier to answer all the important questions.

## YOUR PURCHASE SUPPORTS CHARITY

A percentage of each LaborKit<sup>TM</sup> purchase will be donated to these worthy causes - Elizabeth Glaser Pediatric AIDS Foundation and Calgary Health Region Best Beginning Program. Visit [www.laborkit.com](http://www.laborkit.com) for more information.

## A UNIQUE GIFT

Any mom-to-be would be thrilled to have such a unique and practical gift. Whether it comes from a partner, friend or family member, it is a thoughtful gift that will be used from early labor through the first months and longer. Makes a perfect shower gift.

*"I wish we'd had the LaborKit with my first child. Instead of gathering my stuff together for me to take to the hospital (while I was doubled over with contractions), my husband was in the kitchen making sandwiches for our "guests!"*

*I would highly recommend the LaborKit to any expectant parents."*
